

# Little Paxton Parish Council

## Allotment Strategy

**The Council's strategic objective is:**

To provide allotments where a demonstrated demand exists and within the Council's financial constraints, in keeping with our statutory obligation.

**The Council's specific aims for this service are:**

To supply suitable allotment sites to meet demonstrated demand from the population of Little Paxton for the foreseeable future.

To achieve as high as possible an occupancy rate commensurate with the demand and the natural circumstances of the sites.

To offer a service to current and potential allotment tenants to ensure the rapid re- allocation of empty plots commensurate with the demands of the waiting list, if any.

To retrieve by Notices to Quit those plots whose tenants consistently fail to adhere to the terms of their tenancy.

To make provision for basic safe supply of water sufficient for the reasonable needs of the plot holders.
